EXPERIENCE

Freelance Full-Stack Developer

Praxis Labs

May 2025 – Present

Hafizabad, Pakistan

- Delivered responsive production websites for local visa consultancy firms, handling development, deployment, and post-launch maintenance.
- Managed hosting, domain configuration, deployments, updates, and technical support for client applications.

PROJECTS

Multi-Language E-Commerce Platform | *Docker, Kubernetes, GitHub Actions, ArgoCD*

- Deployed a 20+ service microservices application spanning 10+ programming languages on Kubernetes using containerized workloads.
- Automated application delivery with GitHub Actions and ArgoCD, implementing GitOps-based CI/CD and multi-cluster deployments through ApplicationSets.

Kubernetes Observability Stack | *OpenTelemetry, Prometheus, Grafana, Jaeger, EFK*

- Implemented metrics, logs, and distributed tracing for Kubernetes microservices using OpenTelemetry, Prometheus, Grafana, and Jaeger.
- Centralized application logs using Fluent Bit, Elasticsearch, and Kibana, enabling searchable logs and request-level troubleshooting.

Cerebellum AI | *Next.js, PostgreSQL, pgvector, Prisma, AI SDK*

- Built a personal knowledge system that captures web resources and enables semantic search and AI-powered conversations over stored content.
- Implemented PostgreSQL vector search with pgvector, persistent chat sessions, browser-based content capture, and web-search fallback.

College Management Portal | *Next.js, TypeScript, PostgreSQL, Clerk, Vercel*

- Built and deployed a full-stack college management platform with role-based access for students, faculty, and administrators.
- Implemented fee management, attendance, timetables, quizzes, question banks, and QR-based student verification.

Copilot Superpowers | *TypeScript, VS Code Extension API*

- Developed a TypeScript VS Code extension for organizing and managing reusable AI agent skills directly inside the editor.
- Implemented persistent storage and search using the VS Code Extension API for managing reusable development workflows.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Python, Bash, SQL, C, C++

Frontend & Backend: React, Next.js, Node.js, Bun, Express.js, GraphQL, REST APIs

Databases: PostgreSQL, MongoDB, Redis, Prisma

Cloud & Infrastructure: AWS, DigitalOcean, Cloudflare, Terraform

Containers & CI/CD: Docker, Kubernetes, Helm, GitHub Actions, ArgoCD, Git

Networking: NGINX

Observability: OpenTelemetry, Prometheus, Grafana, Jaeger, Fluent Bit, Elasticsearch, Kibana

AI: AI SDK, RAG, Vector Search, AI Agents

EDUCATION

University of the Punjab

Bachelor of Science in Computer Science

Lahore, Pakistan

Nov. 2022 – Aug. 2026

- Graduated First in Class (Official Class Rank: 1/100).

LEADERSHIP & COMMUNITY

Technical Speaker

University of the Punjab

2026

Lahore, Pakistan

- Delivered a technical session covering CI/CD, Docker, Kubernetes, GitOps, observability, and cloud infrastructure to Computer Science students.

Peer Mentor

Department of Computer Science

2023 – Present

Lahore, Pakistan

- Mentored classmates in software engineering, backend development, and Kubernetes through technical guidance on coursework and personal projects.
