EXPERIENCE

Freelance Full-Stack Developer

Praxis Labs

May 2025 – Present

Hafizabad, Pakistan

- Designed and developed responsive portfolio websites for local visa consultancy firms using modern web technologies.
- Managed deployment and post-launch updates, providing ongoing maintenance and technical support when needed.

PROJECTS

Multi-Language Ecommerce Platform | Docker, Kubernetes, GitHub Actions, ArgoCD, OpenTelemetry

- Containerized and orchestrated a 20+ service microservices application written in over 10 programming languages on Kubernetes.
- Built an automated CI/CD pipeline using GitHub Actions integrated with ArgoCD for GitOps-based deployments.
- Enabled synchronized deployments across multiple Kubernetes clusters through ArgoCD ApplicationSets.

Kubernetes Observability Stack | OpenTelemetry, Prometheus, Grafana, Jaeger, EFK

- Implemented the three pillars of observability (metrics, logs, and traces) for a Kubernetes-based microservices application.
- Instrumented services with OpenTelemetry and exported distributed traces to Jaeger for request-level debugging.
- Centralized application logs using Fluent Bit, Elasticsearch, and Kibana, enabling efficient log aggregation and troubleshooting.
